This Date in History

Life and Character Reading

People born on this date and under this sign must learn continuity and consistency, and they should never permit themselves to do the acts they have condemned in others. They should firmly resolve never to complain or murmur as this habit increases with practice to an awful extent making the elderly people born under this sign very disagreeable in the family. Silence and passive reason, with introspection are the true inner pathways of spiritual illumination. The governing sign of this date is Gemini, the cause of the dual nature those people have. The governing planet is Mercury, and the astral colors are red, blue and white.
